THE PRE PASS SUPPORT SCHEME

Offering support, advice and resources for Accompanying Drivers

Things you should know about young drivers

- Learner Drivers take between **2 and 5 seconds** longer to recognise hazardous situations than most experienced drivers
- Young drivers hold **8%** of all driving licences in the UK yet account for **17%** of all crashes
- The more accompanied practice Learners gain supplementing professional tuition, the **more likely** they are to **pass the driving test** and the **less likely** they will be to **have a crash** during the first two years out on the road

How can we help?

Learning to drive can be just as daunting for the Accompanying Driver as it is for the Learner during private practice.

Lancashire County Council's Road Safety Group has developed the Pre Pass Support Scheme for anyone who is helping a Learner Driver. We have a **FREE** course and CD-ROM available.

Pre Pass Support Scheme Course

The course advises Accompanying Drivers what is expected of them when taking Learners on the road and how to reduce conflicting information being given. Courses are available every Saturday at a dedicated training centre in Leyland.

What will you get from the course?

You will receive a **3-hour classroom session** focusing on the legal requirements of an Accompanying Driver, crash causation, stages of 'L' driver training (including theory and driving test), route planning and the problems Learner Drivers face. Your Learner Driver should also attend this session.

A **3-hour practical session** with a qualified Approved Driving Instructor (ADI) to encourage safer driving techniques and update personal knowledge. The aim is for Accompanying Drivers to lead by example and become more effective mentors.

While the Accompanying Driver is out with the ADI, your Learner Driver will have the opportunity to take part in an interactive workshop. This will include observation exercises, hazard perception practice and practical training of the Show-me Tell-me element of the driving test.

Perfect Partner CD-ROM

Perfect Partner is the first comprehensive CD-ROM aimed at meeting the needs of the Accompanying and Learner Driver. The CD-ROM supports professional driving instruction. This can be used as a stand alone resource or to complement the advice given during the Pre Pass Support Scheme's practical course.

Included in the CD-ROM are dedicated sections for the Accompanying Driver with tips for carrying out effective practice sessions. It also contains a section for the Learner including applicable legislation and advice to help prepare for the theory and practical tests.
